

PowerSaver Business Incentive Program

What is the PowerSaver Business Incentive Program?

Hydro One is offering financial incentives to help our customers in the commercial, agricultural and institutional sectors increase their energy efficiency and improve their bottom line.

As part of the program, Hydro One will reimburse customers for a portion of the cost to purchase energy-efficient technology to a maximum of \$50,000 per customer.

How can my business benefit?

- Decreased electricity use
- Lower electricity costs, higher profit margin
- Financial incentives for technology improvements
- Improved facility operations
- Reduced maintenance costs

What technologies are eligible?

Lighting

- Fluorescent lighting systems (T8, T5 and CFLs)
- Metal halide lighting systems
- LED exit signs
- Occupancy sensors

Motors

- Three-phase premium efficiency motors 1-200hp

Cooling Equipment

- Unitary A/C units (up to 25 tons) that are ENERGYSTAR® qualified or CEE compliant

Transformers

- ENERGYSTAR® qualified three-phase power transformers

Agriculture Sector

- Temperature controls
- Energy saving water bowls

Custom Projects

- Custom projects are also eligible for an incentive of \$150 per kW of demand reduction.

Does my business qualify?

- The PowerSaver Business Incentive Program is open to all commercial, agricultural and institutional customers within the Hydro One Networks service area.
- Applicants must be customers of Hydro One Networks with accounts in good standing at the time of application, the eligibility review period, and the date of payment of incentive (if any incentive is paid).
- For full details on eligibility and qualifying products, refer to the terms and conditions available at www.PowerSaver.ca.
- To be eligible, applications MUST be received by mail or courier at Hydro One by May 31, 2007.
- Technology improvement projects must be completed by August 15, 2007.
